## Washington Pavillion

**Owner:** City of Sioux Falls

**Size:** 230,000 SF

**Value:** \$26.8 million

**Description:** Completed in 1999, the historic Washington High School was converted into a grand arts and science complex that includes performance halls, art exhibit space, science exploration center, large format domed theater, multipurpose space, and meeting rooms. Most of the renovation was within the existing quartzite walls that included work with GHC's crane. Gil Haugan was the general contractor for this truly unique project that is a tribute to the City of Sioux Falls' commitment to art, science, and education.
